## Coleman Elks Celebrated Twenty First Birthday Anniversary; 250 Persons Present To Mark Event

Turkey Supper, Dancing, Musical Program and Brief Addresses Enjoyed; Community Hall Decorated For Occasion.

Exalted Ruler Adam Wilson is busy cutting the Elks' 21st Anniversary birthday cake. Her face obscured by the bouquet of flowers

is Mrs. Wilson. Mrs. Abousaify is seen sitting on Mr. Wilson's left. The waitress walked into the scene as the picture was snapped.

Coleman Elks lodge, No. 117, marked a milestone in the history of the lodge on Friday evening when the members, their wives and invited guests gathered in the Community hall to mark the twenty first birthday anniversary of the lodge with a banquet and dance.

An estimated 250 persons sat down to a turkey supper with all the trimmings. The hall was gayly decorated with the lodge's colors of white and blue, streamers hung from the ceiling, large placards bore the message that this was the Coleman BPOE's 21st birthday, the Union Jack was prominently displayed, a huge Elks' head sat on the stage and with majestic grace looked out above the gathering.

Beautiful bouquets of flowers helped decorate the five rows of tables in addition to the head table. At the head table sat Exalted Ruler Adam Wilson and Mrs. Wilson, as well as Mayor Abousaify and Mrs. Abousaify. In addition there were several other leading officials of the local lodge as well as prominent officials of the Blaimore lodge in front of the Exalted Ruler was placed a huge but very handsome twenty five pound birthday cake topped by a gold painted Elks. Inscribed on the cake were the words "BPOE No. 117, 21st birthday, 1925-46."

Led by musicians, Miss Frances Misson, of Blaimore, at the piano and Gordon Roper, violinist, the audience stood and sang "Happy Birthday" following which the Exalted Ruler cut the cake. It was later cut in small pieces and each present was given a piece.

In his remarks Chairman Wilson bade all welcome to the anniversary which he hoped would be cherished in their memories. His committees had spared no effort to make this an outstanding event in the history of the lodge.

The toast to the King was given by Bro. George Jenkins. Bro. George Meffan proposed the toast to the Coleman Elks in which he stated the local lodge had done a splendid job in conducting and promoting their lodge activities and that the members had also done a good community job. He called upon the officers and members to go forth and accomplish

even greater deeds in the future than those in the past.

Mayor Frank Abousaify responded to the toast and remarked on the Elks' achievements in the community. He singled out the Rodeo as a shining example of Elks' co-operation in referring to them as "Brother Bills" he called upon them to give more attention to youth and act as their protectors and advisers rather than to have youth running rampant as they are through the Dominion today.

Exalted Ruler Art Bourne, of the Blaimore Lodge, proposed the toast to the Grand Lodge. He described the Grand Lodge as a parent who worried over the upbringing of her children but which, tonight, rejoiced at the coming-of-age of one of its off spring. He stated it was the intention of Grand Lodge to take an increased interest in Canadian youth.

Bro. Wm. Gaud replied to the toast and congratulated the Coleman lodge on behalf of Grand Lodge.

Bro. W. Dutil proposed the toast to "Our Guests." He singled out Mayor Frank Abousaify whom he described as having the interests of the community at heart. He pledged the local lodge to take ever increasing interest in community affairs.

Dr. Hope Gill replied on behalf of the guests. He stated that he was deeply honored in being asked to reply to the toast since he was a comparatively new comer to Coleman. He voiced the opinion that all guests were thoroughly enjoying themselves.

In the absence of Bro. W. H. Waldron, president of the Alberta Elks' Association, Bro. Dick Olds, of Blaimore, substituted. Mr. Olds conveyed the congratulations of the Alberta Elks Association to the local lodge and stated the Alberta president had voiced his intention of visiting the Coleman lodge at an early date, probably at the next district meeting scheduled to be held in Coleman.

The Elks' order, stated the speaker, was rapidly increasing. In 1940 there were 3500 members. Today there were 5500. The Save (Continued on Page 4)

## WAGE DISPUTE BETWEEN TEACHERS AND BOARD IN HANDS OF A CONCILIATOR

Coleman school trustees have been notified by the department of trade and industry that Mr. K. A. Pugh, secretary of the department, has been appointed conciliation commissioner to investigate the salary problem at present prevailing between the Board and its teaching staff. Mr. Pugh was in Ottawa last week but is expected in Coleman this week or the early part of next.

The salary schedule drafted by both the local and Blaimore boards to be presented to the two teaching staffs through Mr. Barnett, bargaining agent for the teachers, apparently has never been placed in front of the teachers, Mr. Barnett, according to the Coleman board, having placed the dispute into the hands of the government without further ado.

## Salvation Army To Launch Drive Monday Morning

Expect Aid From Canadian Legion; Pit Head Canvass to be Made; Coleman's Quota \$500.

Captain F. Smith will launch his Salvation Army drive for funds on Monday morning. This drive is in conjunction with the national drive which was completed some weeks ago. The local drive was held up pending the negotiation of the new mine contract.

Legion President, James Lowe has promised Capt. Smith a number of workers which will be divided into two parties, one to canvass international and the other McGillivray.

The Pass quota is the same as in former years, \$1200. Coleman is being asked to raise \$500 of this amount.

In Blaimore the Canadian Legion has kindly consented to supervise the drive and in Bellevue-Hillcrest Jack Dugdale and his union officers are supervising collections.

Eighteen Coleman businessmen have combined to sponsor a full page advertisement in this issue in order to give Captain Smith the full benefit of maximum publicity. The latter makes an appeal to all Coleman citizens to aid the drive with a donation. The money will be used throughout the Dominion to alleviate suffering much of which never sees the light of day and is only discovered by the Army wending into way through the homes of the poorer classes of people in Canadian cities and towns.

Mr. and Mrs. Mike Gorkac, of Dapp, Alberta, are the guests of their son, Alex, and brand new daughter-in-law. The wedding of the latter two took place on Saturday.

## MR. AND MRS. WM. COLE TO LEAVE PASS ON TUESDAY

Mr. and Mrs. Wm. Cole and young daughter will bid their Pass friends good bye on Tuesday next and set forth for Victoria where they will spend the winter months. Several weeks ago they sold their theatre chain to Mr. Purnell and Sons, of Ponoka, Alberta, and the new owners will take over active management of the chain on Saturday, Nov. 2.

Both Mr. and Mrs. Cole are very well known throughout the Pass towns both for their courteous business relations to the public and their charming personalities. Bill has been active in Pass activities ranging from Board of Trade down to sport.

Their presence will be missed locally and their friends join in wishing them happiness in their new home and the best of luck in any new business venture which they should undertake.

## Funeral Of John Jackson Sr. Held On Sunday

Masonic Lodges In Attendance; Interment In Coleman Union Cemetery.

The funeral of the late John Jackson was held on Sunday afternoon from the family residence on Seventh street. Funeral services were held in St. Paul's United church with Rev. Dr. Magowan conducting.

Hymns sung included "Jesus Lover of My Soul" and "Nearer My God to Thee."

Following the service interment was made in Coleman Union Cemetery where Rev. Magowan conducted a brief graveside service.

In attendance were a number of friends as well as Summit Lodge No. 30 A.F. & A.M. and Sentinel Lodge No. 26, A.F. & A.M.

The Pallbearers were members from both lodges, and included W. Cox Jr., W. Marcollin, D. Curry and S. Costanza, of Sentinel Lodge, and Les. McDonald and Archie Beveridge, of Summit Lodge.

## CARD OF THANKS

We wish to express our sincere thanks and appreciation to our many friends who were so kind to us during our recent bereavement, to those who sent floral tributes, cards and letters of sympathy. We especially wish to thank Matron E. V. Woods, Mrs. Nelson, Mrs. Kryvold, Mrs. Bayon, Dr. E. J. Liesemer, Mrs. J. Park, Mrs. J. Radford, of Bellevue, Jim Wilkie and Rev. Dr. Magowan for their kindness and attention to our late husband and father.

## THE JACKSON FAMILY

FLORAL TRIBUTES: The Family; Sentinel Lodge No. 26, A.F. & A.M.; Summit Lodge No. 30, A. (Continued on Page 5)

## BUY A POPPY SATURDAY

Poppies will be on sale by members of the local branch of the Canadian Legion at the bank and main street on Saturday. These poppies are made by disabled veterans.

Every adult is asked to wear a poppy on Saturday and invest 25 cents in a worthy cause.

## School Trustees to Meet Conciliation Commissioner; School Deadline Remains at October 31

Frank Paterson, Janitor, Given Wage Boost; Boiler Grates In Very Poor Condition.

A regular meeting of the school board was held on Wednesday evening. Present Chairman Evans, Trustees Ash, Holly, McNeil and Vasek.

Frank Paterson, Cameron school janitor, was present and sought the same rate of pay as that granted in recent weeks to the high school janitors. His request was granted and he will receive \$150 per month, receiving a pay cheque every two weeks.

The board is taking a grave view of the condition of the grates in the Central school boiler. Efforts have been made to secure new grates but to no avail. Blaimore Iron works will now be called upon to see if they can make the grates.

Chairman George Evans was appointed as delegate to attend the provincial school trustees convention in Calgary, November 13 to 15.

A letter was received from the Dept. of Trade and Industry stating that Mr. Barnett, bargaining agent for the Coleman school teachers, had made application for a conciliation commissioner's appointment to settle the wage dispute between Coleman School Board and the Coleman teachers. The conciliator is Mr. K.A. Pugh and he is expected in Coleman within a few days. From information in its possession it is the Board's belief that Mr. Barnett failed to submit the Board's proposed wage schedule to the teachers but went ahead and placed the matter in the hands of a conciliator on his own behalf.

Only one youngster was admitted to school as a result of the Oct. 31 deadline. The Board will not extend the deadline further.

Contractor Joe D'Appolonia was granted \$500 of the \$1,360 contract for the school paint job. Balance of the work is to be completed next spring.

5 new fire extinguishers have been purchased and they will be distributed through the new school.

Mrs. Holly, janitor, brought to the Board's attention the fact that all but two dollars some odd cents of her recent raise was being eaten up in income tax and unemployment insurance. She asked the Board to take back the raise and use the money for school administration rather than have the money sent to the income tax department. The Board refused her request.

Hermina Peressini has been a Calgary business visitor during the past week.

## Worth Much More

Although Professor Places Value Of Good Farm Wife At \$69,000

The sunrise of the atomic age has not obliterated sheer stock courage. George A. Pond, Professor of Agricultural Economics at the University of Minnesota, has the bedrock fortune that enables a David to face a fearsome adversary. He has calculated that a farmer's wife, if a good one, is worth \$69,000. In the course of his work, Professor Pond asked farm account keepers to tell him how much their wives co-operated in running their farms. It was revealed that those who said the "co-operation of the wife was the keynote" made an average of \$2,760 a year more than the group that reported their wives "did not co-operate extensively." Thus, if a farmer had an investment that would bring him \$2,760 at 4 per cent., he'd need \$69,000. Therefore, if there's anything in logic, a farm wife is worth that sum. It seems to us that this is a good, conservative figure. Without going into the question of how one would determine the value of city and suburban wives, \$2,760 a year is a modest sum for a lady who runs a house, takes care of children, looks after the chickens, heats the milk and bottle-feeds orphan lambs, helps in the garden, makes pie enough so a man can have a piece for breakfast, bakes beans every Saturday, and is willing to make home-made biscuits with reasonable frequency. Add to this the fact that she understands that a man wants fried potatoes for supper five nights a week, and the professor's arithmetical conclusion is far too low. We would make it a flat \$100,000 without quibbling.—New York Times.

## Whitewash Is Sanitary

Should Be Applied To All Winter Quarters Of Farm Animals

Soon the farm animals and the poultry will have to go into winter quarters. If the buildings are clean and sanitary the livestock can be more easily kept in good health and with good health they will work better or produce more. It is not a big job to put the buildings in a sanitary condition; whitewashing will do. The surface to be whitewashed should be free from dirt or grease. Just before applying the whitewash dampen the surface so that the wash will not set too quickly. If a sprayer is used, in preference to a brush, be sure to strain the whitewash through two or three layers of cheesecloth. A good disinfectant whitewash can be made by adding one or two ounces of carbolic acid to each gallon of whitewash. Good recipes on how to mix whitewash of different kinds may be obtained by writing to Dominion Department of Agriculture, Ottawa. These recipes include ordinary whitewash, interior whitewash, exterior weatherproof whitewash, simple cold water paint, weatherproof cold water paint, and washable cold water paint.

## A WONDERFUL GIFT

Prime Minister Smuts of South Africa presented British cash gifts of more than £100,000 (\$4,000,000) as a "national tribute" from the South African people. In a ceremony at 10 Downing street, Prime Minister Atlee said the gifts were "a wonderful symbol" which demonstrated "the spirit in which we must go forward to a new and peaceful era."

El Azhar at Cairo is the oldest university in the world, founded in 927 A.D. 2696

**IT'S DIFFERENT—SERVED WITH STUFFING**—Your meals will never be victims of monotony if you remember to serve one new dish each day, or to serve an old standby in a brand new way. For instance, stuffings and sauces can add interesting new slants to chops and other common meat dishes. Try stuffing pork chops next time you buy them and serve them with fried apple rings for a delicious and timely meat variation. The stuffing adds extra flavor and glamorizes one of the simplest of meat cuts. Stuffed chops make a good company dish or Sunday dinner entrée—and you'll be pleased to learn how little fussing is required in the making.

## Baked Chops With Bran Stuffing

4 double thick chops, pork  
or veal  
Salt and pepper  
1 recipe Bran Stuffing.

Slit chops through the middle to form a pocket. Season inside with salt and pepper. Fill with stuffing and fasten opening with skewers or sew together with coarse string. Beat egg lightly and mix with water; roll corn flakes into fine crumbs. Dip chops in egg then in crumbs; repeat. Sprinkle with salt and pepper and brown on both sides in hot fat. Cover and bake in moderate oven (350 deg. F.) about 45 minutes. Garnish with apple slices which have been sautéed in hot fat. Yield: 4 servings.

## Bran Stuffing

3 cups fine soft bread crumbs  
1/2 cup bran  
1 tablespoon minced onion  
1/2 cup milk or stock  
Combine ingredients; mix lightly.

## Try For Walker Cup

American Golfers To Compete With Britain Next Year For Trophy

NEW YORK.—Eight top American amateur golfers are going to Britain next year in an attempt to bring back the United States golf association international trophy—better known as the Walker Cup. This was disclosed by the U.S.G.A., which announced that the international matches between amateur teams of Britain and the United States would be resumed at St. Andrews, Scotland, May 16 and 17, 1947. The trophy has remained in Britain since 1938, when the British team scored its first victory in the series, defeating the Americans at St. Andrews, seven matches to four, with one halved.

War broke out in Europe before the teams could get together for their next meeting in the series, scheduled at St. Paul, Minn., in 1940. No Walker Cup matches have been held since.

The custom has been to alternate the matches between Britain and the United States in 1946, saying it was too soon after the war to have its players and courses in shape and declined an invitation to bring the cup and defend it in this country in 1947.

## Helps On Up-Grade

New Bicycle Designed In Britain Has Motor That Stores Energy

The latest design of a bicycle in Britain has a radio and a motor that stores energy going downhill and releases it on up-grades. The cyclist's joy in swooping down a steep incline is always slightly marred by the unfortunate tendency of roads to provide a reverse slope immediately. He sees the hill ahead, and his thought, as he

turns the giddy wheel around, revolves the sad vicissitude of things.

Now, however, he can at least take comfort in looking forward to the time when he will free-wheel uphill to the sound of music—a vision he could hitherto only associate with the peddler of dreams.

Of course, the design may not please everyone. For, in the future, when members of British cycling clubs gather in their hundreds for a rally, what a stirring clamor will herald the approach—especially if they are not all tuned to the same program!—Christian Science Monitor.

## A MEMORY SYSTEM

Forget each kindness that you do

As soon as you have done it;

Forget the praise that falls to you

Before you can repeat it;

Forget the slander that you hear

Before you can repeat it;

Forget each slight, each spite, each

—Whenever you may meet it.

Remember every kindness done

To you, what's or its measure;

Remember praise by others won,

And pass it on with pleasure;

Remember every promise made

And keep it to the letter;

Remember those who lend you aid,

And be a grateful debtor.

June became popular as a wedding month because it gets its name from Juno, the faithful wife of Jupiter and the goddess of marriage.

## LITTLE SILVER MINE

United States WAA Discovered De-salting Kit Bags Were

Valuable

Discovery of what amounted to a little silver mine in war surpluses was reported by the United States War Assets Administration.

Milton Hammer, WAA official, said the agency some time ago became suspicious of purchaser interest in surplus de-salting kit, used to make sea water drinkable.

Thereupon he had the kits assayed by the Bureau of Standards and found that five ounces of silver—worth several dollars—could be extracted from each kit. They had sold for as little as five cents each.

Hammer related the "silver rush" story to the House surplus property committee.

Prospective purchasers, he said, proceeded in their negotiations with WAA for thousands of the kits on a theory that the agency did not know the silver could be removed.

Not one prospective purchaser told the agency "there is silver in them there kits," he said. One purchaser said he wanted the kits because of the pretty little bags they were put up in.

Immediately upon the report from the Bureau of Standards, Hammer said, he froze the 255,000 kits the surplus agency still had on hand.

Now, he said, the WAA has offered the kits to the highest bidders, with a bottom price of \$3.75 each. He expressed the opinion that the government will get at least \$4 per each kit. They cost the government \$20 each. They are being sold on the basis of their silver content.

## Extra Precautions

Have To Be Taken To Keep Penicillin Free From Bacteria

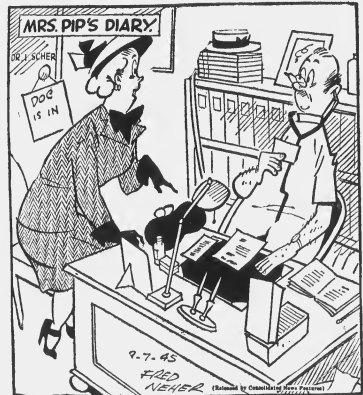

Now that penicillin can be obtained by a hospital or by any doctor qualified to prescribe it for his patient, the most rigorous precautions are taken to keep it without blemish.

Penicillin, which destroys various bacteria which are harmful to man, has its own enemies among them. Therefore, to keep them out of action, the chambers where the penicillin is at last made ready have glass-lined walls and ceilings, and floors where the bacteria cannot find a crevice to hide in. All who enter the chambers wear sterilized shoes, clothing, hoods, and gloves. Sterile air is pumped in and kept at slight pressure, so that bacteria rarely get in with the workers, and ultra-violet rays await them if they do.

Soap-making on an industrial scale is believed to have originated in Italy at the time of the Roman Empire.

## LIFE'S LIKE THAT

By Fred Neher

"You've made such great strides in medical science, Doctor, that I'm almost ashamed to tell you my same old symptoms."

## PEGGY

## THE TILLERS

**BASEBALL TO ANTIQUES**—Second annual Brooklyn Antique Fair is a salute to Brooklyn, which recently celebrated its 300th birthday. Prize attraction at the show are these three French fans dating back to early 1800's. An estimated 50,000 antiques are being displayed.

## Return To Bikini

Says Natives Think Of The Island As A Gold Mine

It is quite probable that the natives of Bikini who moved off the island for the underwater atomic bomb test will return there since Bikini is to them a gold mine. Air Vice-Marshal E. W. Stedman, who was present at both the Bikini tests, told a gathering in Ottawa.

Asked if, as it turned out, the decision to move the inhabitants of Bikini off the island for the test had been wise, the speaker agreed that it had. For one thing he said, the shower of water which fell on the island after the underwater blast was heavy, and for another thing a great deal of radioactive water had been washed over the reef and would have been unsafe for anyone living there.

The deepest diamond mine in the world is the Kimberly mine in South Africa, extending 3,600 feet.

### Border Rules Eased

Canadian Citizens May Enter U.S.  
Up To Six Months Without  
Passports

WASHINGTON. — Attorney-General Tom Clark announced that Canadian citizens may enter the United States for visits up to six months' duration without passports, visas or other documents.

The new regulations are the result of negotiations between Canada and the United States which have been carried on intermittently for some years.

Mr. Clark said the new procedure "will enable Canadian citizens to enter the United States under much the same conditions as American citizens are permitted to enter Canada."

Under wartime travel restrictions Canadian citizens were admitted for up to 29 days without being registered and fingerprinted under the alien registration act if they held proper travel documents.

### OUR COMPLETE SHORT STORY—

### Too Cute To Know

By BETTY BAXTER

Copyright  
Wheeler Newspaper Syndicate

LINDA's feet scarcely touched the ground as she dashed from the street car in through the mail entrance of McGonagles', the city's "Largest and Smartest Store". All salesgirls were expected to be at their respective counters by nine-thirty sharp, and Linda, who had called her at seven-thirty ever since Linda's alarm clock broke and had to be taken to the jewellers, overslept and it was only by chance that the sharp honk of a car passing by awakened her. The girl at the corner luncheon room seemed more impatient than usual. She poured the coffee with the leisurely air of a dowager at a tea table and seemed to dare Linda with her eyes to say anything as she paused and made a few bright remarks to a young sailor before the steaming cup in front of her impatient customer.

At nine thirty-two Linda was at her counter of children's ready-to-wear giving her short feather curls a few reassuring parts. Her face lighted up with the brightest of smiles as she saw a tall young man, smartly dressed in grey, approaching her counter.

"Good afternoon, Miss Morton, and may we have this counter looking a bit better today," remarked the young man caustically, ignoring the welcoming smile of the salesgirl.

"Of course, Mr. Dodge. I'm very sorry I was late. Shall I rearrange this display?"

"That won't be necessary. Just remember that we must be punctual if we are to maintain the efficiency of this department."

Linda watched the departing figure of Mr. Dodge. He had been the floor manager of the children's ready-to-wear for two months. A discharge pin shone smartly on the lapel of his coat and he carried himself with the air of a person who knew what he wanted. And then she forgot the counter, the display, and the cashier of the store and thought of Chris. Chris with his funny smile and the way he would think of any excuse to tease her. She didn't mind hurried breakfasts, slow streetcars and tedious days at the store, if Chris were waiting for her at six o'clock. If Chris were waiting for her at the Copper Kettle, then she would wait. Chris, who she had been ever since—well, ever since anything had started to be important, everything would be all right.

For six weeks the Copper Kettle had been their secret meeting place, and each evening was something to look forward to. Everything they did was special. Linda liked best of all their walks through the park and thinking that highest by the river in the evening, and looking down on the city with its hundreds of lights shining carelessly and temptingly below.

Chris had only recently been released from the army. New Guinea, the Solomon, and Luzon were already becoming a distant memory. Sometimes, he told Linda, he wondered if he had actually experienced these frightening days and nights when with some of the men in his company they would leave the islands alive. Well, he had left Luzon alive, but on a stretcher. With shrapnel wounds in his side and a broken leg he returned to the States, first to Letterman General in San Francisco, and then near home where he spent many months in an army hospital. The long weeks with his leg in traction gave him plenty of time to think. Time to make plans for the future. At 27 years he still had a lifetime before him and he didn't intend to waste the valuable lessons the army had taught him.

Linda could still hear Chris saying, "You can't learn a business by starting at the top. I entered the army with some of the men in my company that earned the respect of their men most easily were those who knew the life of an enlisted man by real experience. Dad wants me to be his assistant. Well, I won't do that. And what's more, I'll not even be known as Old J. C.'s son. I'll be an independent nonentity until I can prove my own value—such as it may be."

Though Linda would tell herself that she probably would agree with him if he said the best way to become vice-president of the United States was by swimming Lake Superior. Not that Linda Morton wasn't a rational, sensible young girl. It was just that these last few weeks with Chris made anything seem possible.

"Good. Linda, what do you say?" "What was he mad? Don't you see, Linda? You're our best salesgirl and he knows it." Millie broke into Linda's daydreams and brought her back to the children's ready-to-wear, McGonagles' incorporated.

"It was nothing," Linda reassured

### "Why Didn't I Do This Before!"

If your nose ever fills up with stuffy transient congestion—just time put a little V-a-tro-nol in each nostril. Quickly congestion is relieved, breathing is easier. V-a-tro-nol works right where trouble is to relieve distress of nasal conditions. Try it! Works fine! You'll like it!

### VICKS VA-TRO-NOL

FRENCH JUMENT DOLLS—Jane Delmarie shows off three of the French "Jument" dolls on display. The dolls date back to 1880. Models of ships which plied the harbors of Brooklyn and Long Island, early American furniture and silverware also are on display.

her plump little friend and co-worker, "but a few suggestions I'll really get a calling-down if I'm late again."

Linda took care of a customer who came to the counter, and exchanged the sweater she returned for a different size. The day dragged by as Linda always did when she was going to meet Chris—each hour a week, with the usual 15 minutes for coffee and Millie's commentaries on Life at McGonagles' which today were generously flavored with Mr. Dodge.

"Honestly, Linda," Millie chattered on. "How can you put up with it? He's nice enough to the rest of us girls, but with you—He either ignores you completely or else criticizes your work. Maybe you should warn up to him a little. Maybe he thinks you're too tame to know."

"Thanks, Millie," laughed Linda. "Perhaps I should change my tactics, but for some reason I just don't care. My thoughts begin and end with Chris. You know that. It's silly I know. But I want to get over it."

The five-thirty bell rang at last. The salesgirls quickly covered their merchandise and ran for their coats. That is, all the girls except Linda. Linda checked her makeup meticulously, placed her little navy hat just so, and went down the escalator and out of the store.

"So I'm too cute to know. A fine thing," she mused as she strolled along.

Her heart beat a little faster and her cheeks were a becoming pink as she walked into the Copper Kettle to her waiting Chris.

"Well, Miss Morton, must we be late again?" said a grinning J. Christopher Dodge, Jr. "For this last piece of inefficiency I request that you turn in your resignation and devote your entire time to being Mrs. J. C. Dodge, Jr. Besides, my sweet, I'm afraid our little game couldn't last much longer. The management would distinctly frown upon my taking you in my arms every time you came in late. Am I right?"

Though the answer wasn't exactly audible as he took her in his arms, there was no question to Chris, or to the friendly waiter standing nearby that Linda agreed with her boss and liked it.

### RULING ON PARCELS

Britons in future will be allowed to receive an unlimited number of gift parcels from abroad without an import license, provided the weight of each parcel does not exceed 22 pounds. It was announced in the British House of Commons. The ban on parcels sent abroad to send parcels remains in force.

FEEL WEARY, DULL? TAKE NR TO-NIGHT

Feel half! Headache from fatigue eliminated, weary and dull? Take NR tonight, an all-vegetable laxative with a thorough, cleansing action. NR comes in two strengths, regular NR, and NR Junior (½ dose), both made for you if sensitive to laxatives.

### CANADIAN AUTOS

Have Appeared On The New Zealand Market

AUCKLAND, N.Z.—The first post-war Canadian automobiles have only recently appeared on the New Zealand market, almost a year later than those from Britain. Cars from the United States still have not started to arrive.

Canadian cars which have so far arrived are all of one make and are assembled at the factory works in New Zealand. Before the end of the year fairly large supplies of several makes are expected however.

Standard model Canadian cars available are selling at about \$2,250. This is higher than the price for popular types of small English cars of eight and 10 horsepower which sell at about \$1,600 to \$1,900, but compare favorably with the larger English cars.

Next to the United States and Canada there were more cars per capita in New Zealand than in any other country before the war. Although its population is still below 1,750,000, dealers estimate that there is an immediate market for 100,000 cars in the Dominion if they could be supplied.

In 1938, the last full importing year, Canada supplied New Zealand with 7,697 unassembled and 39 assembled cars. This was well behind the 17,000 cars imported from Britain, but ahead of the 2,500 from the United States.

### Dress For Weather

Wearing Proper Clothing Is One Way To Prevent Colds

Before that No. 1 health menace—the common cold—gets you, begin your conquering strategy by starting out for the day dressed for the weather. Becoming either chilled or overheated in guess-they'll-do clothes makes you a push-over for the sniffles.

Best way to cope with weather that blows hot and cold is to dress to suit the need arises. Give a glum day the benefit of the doubt by carrying along your rubbers. Rubber toe guards for shoes stuffed into the pocket of a coat or over a good health insurance to take out against the possible hazard of wet feet, which are high on the list of suspects as the cause of colds.

Begin right now to lay in a reserve of good health by eating more protective foods. Get enough sleep, and plan to get some exercise every day.

### SELECTED RECIPES

#### GOLDEN CREAM CHOCOLATE CAKE (3 eggs)

2 cups sifted Swiss Down cake flour  
2 teaspoons Calumet baking powder  
1 teaspoon soda  
1 teaspoon salt  
1 cup butter or other shortening  
1 cup sugar (\*)  
2 eggs, uncooked  
3 squares Baker's unsweetened chocolate, melted  
1 cup milk  
1 teaspoon vanilla

Sift flour once, measure, add baking powder, soda, and salt, and sift together three times. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add eggs, one at a time, beating thoroughly after each. Then add chocolate and blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased 9-inch layer pans in moderate oven (350 deg. F.) 30 minutes.

Spread Cream Frosting between layers and chocolate frosting over cake.

(\*) You may substitute corn syrup or honey for half sugar. Use 1 cup of each; decrease milk to ¾ cup.

#### GRAPE-NUTS PUFF PUDDING

6 tablespoons butter  
2 cups grated lemon rind  
¾ cup sugar—or use honey  
3 egg yolks, well beaten  
1 cup lemon juice  
3 tablespoons flour  
6 tablespoons Grape-Nuts  
1½ cups milk  
3 egg whites, stiffly beaten

Cream together butter and lemon rind; add sugar gradually and lemon juice. Add egg yolks, beating thoroughly; then add lemon juice.

Add flour, Grape-Nuts, and milk and mix well. Gently fold in egg whites.

Turn into greased baking dish, place in pan of hot water, and bake in slow oven (325 deg. F.) 1½ hours. Serve warm or cold, plain or with cream. Serves 6.

### SHORT NAMES

"Where the lrt, the Mite and the Esk form a harbor," goes an English paper on walking, one pleasure, at least, that peace has restored to the slabs of walkers. lrt, Mite, Esk, they have the spirit and crisp of tumbling water. Short and quick, like the streams themselves, are the old British names. Tyne, Thames, Tweed, Don, Dart. How different from the ample names of North America, the long and rolling: Athabasca, Mississippi, Monongahela.

The first recorded abdication of a sovereign was Sylla, the Roman dictator, in 79 B.C.

## The Quality Tea "CATALPA" ORANGE PEKOE

### SMILE AWHILE

Mrs. Snagg: "Did I understand you to say Mrs. Perkins is interested in business?"  
Mrs. Bitters: "Yes."  
"What business is she interested in?"  
"Everybody's."

"When your papa was coming me he always kissed me on the brow."  
"Harold usually kisses me on the steps," replied Evelyn, absent-mindedly.

"I think it's disgusting that some comedians should earn twice as much as Cabinet Ministers."  
"Oh, I don't know. After all, taking them as a whole, they are funnier."

The minister was asking one of his flock why he had not attended church lately.  
"Well, you see, sir," said the man, "I'm troubled with a bunion on my foot."

"Strange," said the parson, "that a bunion should impede the pilgrim's progress."

Said Mr. Holman: "A baby's troublesome, that's true; but remember the hand that rocks the cradle rules the world."

Replied his wife: "Well, then, suppose you assume world dominion for the evening while I go to the cinema."

Mistress: "I am sorry you are leaving us, Jane. But, of course, if you are going to better yourself, I am."

Maid: "Oh, no, Madam. I am going to be married."

Little Joan knew that her aunt was anxious at not having heard from her soldier sweetheart and offered to include him in her prayers.

"Thank you, darling," said aunt, "that will be nice."  
"God bless me and make me a good girl," said little Joan, "and send aunt's soldier home safe, and single."

The village milkman bought a horse for his morning round. It was not exactly a thoroughbred, but it had four legs.

One day he took his bargain to the blacksmith to have him shod. The smith regarded the weary-looking animal critically, paying particular attention to his lean body and spindly legs.

"You ought to have a horse there some day," he said at length. "I see you've got the scaffolding up."

A doctor was attending a pretty girl who had been ill for some time.

"You've got acute appendicitis," he announced.

The girl sat up indignantly. "I say, cut out the freemason," she said. "I want to be examined not admired."

### ABOUT THREE YEARS

The first guided missile to the moon probably will crash into it about 1950. Arthur Clark, a former R.A.F. flight lieutenant now a student at London University, said. Lecturing the British Interplanetary Society on Spaceships, Clark said fuel would be the main trouble and human beings who thought they might follow shortly after the first mechanical attempt were likely to be disappointed.

To Feel Right — Eat Right!

Get Double-Action  
**CONSTIPATION**  
Relief!

Don't let constipation get you down. Do this for effective, yet remarkably gentle relief: Simply take 2 to 4 tablespoonsful of Phillips' Milk of Magnesia with your food. You'll wake up feeling on top of the world—refreshed and bright. In addition, Phillips' Milk of Magnesia is acknowledged by science as one of the fastest neutralizers of excess stomach acidity known! Thus you get double action—relief from acid indigestion, flatulence and sluggishness. Remember...

### Nation Of Vegetarians?

Figures Indicate Canadians Eating More Fruit And Vegetables

Are Canadians becoming a nation of vegetarians?

Figures would tend to indicate that they are certainly eating more fruit and vegetables than ever before.

In August of this year they ate 12 per cent. more fruit and vegetables than they did in August, 1945. Cumulative sales for the first eight months of the year were 20 per cent. over 1945.

Meat shortages no doubt have much to do with this trend but it is not improbable that once the habit of eating more of these foods takes hold it will continue indefinitely.

Today the merchandising and service section of the Bureau of Statistics reports that sales of fruits and vegetables in Canada increased 12 per cent. over August, 1945, with the western Provinces showing the largest gain of 20.5 per cent.

Wholesalers of fruits and vegetables in the Maritime provinces and Quebec reported an increase of 2.5 per cent., while those in Ontario had sales 7 per cent. higher than in August a year ago.

### RECTAL SORENESS AND PILE TORTURE QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passing of stool may be cured and proper treatment should be secured at once.

For the purpose of getting a package of Hem-Hoid from any drugstore and use as directed. This formula is used internally as a small, easy to take tablet, will quickly relieve the itching and soreness and in passing the stool tender spots. Hem-Hoid is pleasant to eat and is recommended as it seems to be really of help in curing a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Hoid and are not entirely pleased with the results, your druggist will gladly return your money.

### Parcels For Britain

Limited Weight For Gifts And Food To Be Twenty Pounds

OTTAWA.—The post office department announced the weight limit for gift and food parcels addressed to the United Kingdom has been lifted from the wartime restriction of 11 pounds to the normal maximum weight of 20 pounds.

Parcels also no longer are restricted to one a month and there will be no limit on the quantity of food in general or of any one foodstuff in particular which may be included in a gift parcel weighing up to the 20-pound limit.

The announcement said the parcels must be unsolicited bona fide gifts and must not be imported into Britain as merchandise or for sale. Each parcel must be clearly marked with the word "gift."

The concessions do not apply to parcels containing arms and ammunition, plumage, dangerous drugs or other articles subject to special prohibition and restrictions. They also do not relieve goods from liability of any appropriate customs duty or purchase tax on arrival in Britain.

### TEN-YEAR-OLD BOY LANDS LARGE TROUT

FORT WILLIAM.—One of the proudest boys in Canada is 10-year-old Vince Kenney of Rossport, Ont., R.A.F. flight lieutenant now a student at London University, said. Lecturing the British Interplanetary Society on Spaceships, Clark said fuel would be the main trouble and human beings who thought they might follow shortly after the first mechanical attempt were likely to be disappointed.

Word of the boy's achievement was received here by Harvey Johnson, secretary of the Thunder Bay game and fish association, who has entered the trout in the association's annual competition.

## THE COLEMAN JOURNAL

### Require Better Publicity

Last week a hearing was held in  
to the price of milk in the Crow's  
Nest Pass. At the hearing sus-  
picion was voiced that the dairies  
in the area were making handsome  
profits, extravagance prevailed and  
that the producers were guilty of  
poor book-keeping.

The producers are probably  
guilty for this false impression  
which has been built up against  
them. They take no steps to com-  
bat this false propaganda.

The producers in this area re-  
mind us of the chartered banks in  
the days of the Social Credit party.  
Remember how they used to get  
on the political platform and score  
the chartered banks with all the  
abuse at their command. The banks  
then, in order to defend themselves  
and maintain the reputation they  
had painstakingly built up over so  
many years as public service in-  
stitutions, had to employ capable  
public relations officers and start  
advertising campaigns to acquaint  
the citizens with banking facilities  
and services. The result of employ-  
ing public relations men and plac-  
ing their message in front of the  
public can be seen daily by the  
thousands of men and women who  
frequent the banks, who trust  
banks with their life savings, who  
transact their important business  
transactions through the banks and  
who call upon bank managers to  
give them advice in practically all  
financial matters in which they are  
in doubt. To day the banks are held  
in the highest esteem by all right

thinking Canadians and rightly  
they should. They truly are public  
service institutions.

While the milk producers cannot  
be expected to employ public re-  
lationship officers there is nothing to  
prevent them from combining and  
placing a monthly message in front  
of the Crow's Nest Pass public in-  
forming the public of their prob-  
lems, and methods taken and being  
taken to insure a steady supply of  
fluid milk reaching the tables of  
Pask consumers. They, like the  
banks before them, must combat  
false propaganda.

### Icy Roads Dangerous

The past week has shown the  
need of a sand pile which should  
be available to sand icy streets and  
thus lessen the hazards of danger-  
ous motoring.

Blairmore Road saw five cars in  
the ditch due to icy road conditions.  
West Coleman witnessed one col-  
lision again the result of icy roads  
and some cars were unable to make  
Carbondale hill without a second  
try and this time in second gear  
before they made the crest of the  
hill.

The town should be ready to sand  
the streets whenever they become  
dangerous to travel. One other point  
which should be kept in mind is that  
all merchants and also the school  
board having sidewalk frontage  
should have the snow cleared from  
the sidewalks at the earliest pos-  
sible moment. A town by-law  
covers the latter point and it should  
constantly be enforced.

## Elks Celebrated

(Continued from Page 1)

The Children Fund sponsored by  
the Elks had gathered in \$118,000  
which had been sent overseas to war  
devastated areas. Of this amount  
Alberta Elks had contributed \$35,-  
000. He described Alberta Elks as  
the main cog in the wheel of Elk-  
dom in the Dominion. He described  
the Coleman Elks as an asset to the  
community.

Bro. Cecil Coover paid tribute to  
Bro. Olds for his work in the Elks.

Bro. Olds was again called upon  
to award life membership certifi-  
cates to eight charter members of  
the local lodge who tonight were  
celebrating twenty-one years as  
members of Coleman Elks lodge.  
Those awarded their life member-  
ship certificates were J. M. Rush-  
ton, Bert Bond, Tom Higginbotham,  
Steve Leosky, Joe Plante and  
Jack McDonald. Wm. "Bill" Jen-  
kins and Tommy Lloyd were not  
present and will be presented with  
their certificates at a later date.

A most enjoyable musical pro-  
gram, studied with talented artists  
from throughout the Pass, was en-  
joyed by all. The artists included  
Miss Frances Mission, piano; Stan-  
ley Klish, piano; Miss Audrey  
Sterba, vocal solos; Gordon Roper,  
violin selections; Louis Balfour,  
vocal solos. Mr. Wm. Moffat pre-  
sided at the piano for Bro. Balfour,  
while Mr. Klish accompanied Miss  
Sterba on the piano.

Following the banquet the floor  
was cleared for dancing, the music  
being supplied by the Arcadians'  
orchestra.

It is most interesting to note  
just who were charter members of  
No. 117. Names appearing on the  
charter include: J. M. Allan, Wm.  
Antle, E. Barnes, R. F. Barnes, F.  
Barringham, L. Beaton, F. Bed-  
dington, J. Bell, E. Bergquist, B.  
Bond, J. H. Boulton, A. J. Brown,  
E. C. Clarke, A. M. W. Cooke, W.  
Cousins, J. C. Cox, W. Dixon, W.  
N. Donaldson, J. Downie, W. F.  
Edgar, W. H. Garner, E. F. Gare,  
H. Gate, A. Gentile, J. Glendenning,  
H. Graf, C. M. Graham, R. M.  
Greenhalgh, W. H. Griffiths

J. J. Hadley, W. Harrison, J. J.  
Hart, R. J. Hart, E. Henriek, T. B.  
Higginbotham, W. C. Jenkins, T.  
Johnson Jr., E. Jones, L. Jones, T.  
Jones, S. Klejko, M. Larsen, E.  
Ledieu, S. Leosky, C. Makin, T.  
Merryman, E. Moore, A. McDic-  
ken, J. A. McDonald, W. J. McGrath,  
J. A. McLeod, N. W. McNeil, H.  
Olson, J. E. Plante, W. Rees, A.  
Reynolds, W. Roughhead, J. M.  
Rushton, R. H. Shone, S. C. Short,  
R. Tennant, Dr. J. A. Tolmie, W.  
G. F. Wells, W. Whittaker, N. S.  
Wilke, D. B. Young, R. Young, T.  
Young.

Those who have since passed to

the Great Beyond include: H. Antle,  
W. Bell, W. Bobbitt, A. K. Burrell,  
H. W. Clark, N. P. Eastwood, R.  
Evans, D. J. Gould, F. G. Graham,  
J. T. Hopkins, J. Houghton, T.  
Jackson, J. Jackson sr., G. Kellock,  
J. M. McKenna, J. Oliphant, G. R.  
Powell, D. Randall, J. C. Richards,  
J. S. Rogers, A. F. Short, O. E. S.  
Whiteside.

## Coleman's Sales In Savings Bonds Reach \$59,550

Coleman Ranks Fourth In  
Southern Alberta In Number of  
Applications

Coleman is well up among the  
leaders in the various southern  
Alberta centres in the sale of Can-  
ada Savings bonds. At the close of  
last Saturday's business Coleman  
was fourth in the number of applica-  
tions received, Lethbridge, Medi-  
cine Hat and Macleod being ahead,  
the latter with only 1 application  
more, 108 against Coleman's 102.

Coleman had a sales total of  
\$59,550. This is bettered by Leth-  
bridge Medicine Hat, Macleod and  
High River.

The bank and various investment  
agents in town as well as the pay-  
roll deduction plan has resulted in  
Coleman having such a splendid  
record.

Bellevue is second in the Pass  
towns with 68 applications for a  
total of \$36,800 and Blairmore  
comes last with 67 applications and  
subscriptions totalling \$29,300.

The campaign ends this week  
end.

## Jack Chalmers To Open New Store December 1st.

Jack Chalmers is keeping his  
fingers crossed and hopes that  
supplies of material for the renovation  
of his new store on main street will  
continue to flow freely and allow  
the workmen to complete their  
work in November to allow him to  
open the premises to the buying  
public on December 1.

Mr. Chalmers purchased the  
Saad block and is making radical  
changes to both the lower and se-  
cond storeys. Contractor Joe Pa-  
polonia has maintained a crew of  
men on the job for the past several  
weeks.

In the meantime Mr. Chalmers is  
getting as much merchandise to-  
gether as possible and hopes to  
have an excellent display of mer-  
chandise suitable for the Christmas  
trade.

In the radio department he has

engaged the services of Mr. Jack  
Houghton (see advt. elsewhere in  
this issue). The most modern test-  
ing and repair equipment has been  
secured and it is the aim of both  
Messrs. Chalmers and Houghton  
that the radio owners of Coleman  
will have first class radio service.  
...V...

### WEDDINGS

#### STAMM-SMITH

A wedding of interest to Cole-  
man's younger set occurred at New  
Westminster on Saturday, October  
19, when Mamie, daughter of Mr.  
and Mrs. James Smith, of New  
Westminster and formerly of Cole-  
man, was united in marriage to  
Mr. M. J. Stamm, of Bellingham,  
Washington. The ceremony was  
conducted by the Rev. Father  
Smith. A male choir sang Mass  
during the ceremony.

The bride, given in marriage by  
her father, wore a white satin  
gown, her floor-length veil being  
held by a coronet of orange blos-  
soms. Her only ornament was a  
diamond studded heart shaped  
locket, a gift of the groom.

Miss Sadie Smith, sister of the  
bride, was bridesmaid, and chose a  
gown of pink tulle.

The groom was attended by his  
brother, Edward Stamm.

Sixty guests sat down to a wed-  
ding dinner, the bride's table being  
centred by a three tiered wedding  
cake, which had been baked and de-  
corated by the groom's mother. The  
toast to the bride was given by  
Rev. Father Smith and responded  
to by the groom.

The young couple left for a  
honeymoon at New York and other  
United States centres. For going  
away the bride chose a gabardine  
suit, brown felt hat and matching  
accessories.

Upon their return to the west  
coast they will reside in their  
newly constructed home in Belling-  
ham where the groom is engaged  
in the lumbering business.

### HOCKEY NOTES

The Coleman Sports Association  
is having an executive meeting on  
Friday evening for the purpose of  
employing two ice makers. It is  
very probable that the positions  
will first be advertised.

Melvin Jackson, of Camrose, is  
coming to Coleman, if he isn't al-  
ready here, to try out with the lo-  
cal intermediates.

Neil Andrews failed to make  
good in his try-out with an eastern  
professional team and is now back  
in New Westminster. He and  
brother Jim will be back in Coleman  
sooner to play for the Intermedi-  
ates.

It is the intention of the club ex-  
ecutive to have as strong an in-  
termediate team as possible and  
try once again for the provincial  
title.

### ICY ROADS CAUSE SEVERAL ACCIDENTS ON SATURDAY

Several accidents occurred on  
Saturday, caused by icy road con-  
ditions.

The most serious accident occur-  
red Saturday morning when a car  
owned by John Olisoff and the  
Crow's Nest Pass Transport col-  
lided. The truck careened into the  
half ton Salus delivery truck, all  
three vehicles going into the ditch.  
Sam Sagoff's car was required to  
pull the transport back on to the  
road.

Two other minor accidents occur-  
red on Blairmore Road when cars  
skidded off the highway into the  
ditch.

A collision occurred in West  
Coleman between Sam Sagoff's  
truck and a car driven by Emil  
Ukrainetz. The coupe was damaged  
but the truck was undamaged.

### In Memoriam

PETRIE—In Loving Memory of  
my dear wife, Annie Petrie, who  
passed away on October 31, 1945.

In our home she is fondly  
remembered,

Sweet memories cling to her  
name;

Those who loved her in life  
sincerely,

Still love her in death just the  
same.

Ever remembered by her loving  
husband, Clarence Petrie.

## Common Sense Saving!

## Buy Canada Savings Bonds

It has been proven time and again that  
Money Makes Money.

Practically everyone bought Victory  
Bonds and experienced the thrill of clip-  
ping interest coupons every six months  
or receiving a cheque from Ottawa every  
six months for bond interest.

## Those Were Cases of Money Making Money.

You are given the same opportunity  
again to invest money. Interest is 2.75  
per cent. Canada Savings Bonds have  
identically the same secure backing as  
did Victory Bonds.

Practice common sense saving and in-  
vest in

# HOPE for the HOPELESS

► Many a man, reduced to hopelessness by folly, misfortune or the accident of circumstance, dreams of what he might have been . . . and of what he still might be if material assistance and restored faith in his own capacity were forthcoming. To such men, The Salvation Army brings hope and the chance of recovered self-respect and usefulness.

Thousands of men, women and children in Canada have reason to bless the human touch and the understanding heart of The Salvation Army.

Its trained workers, experienced in bringing practical help and spiritual inspiration to individuals sunk in the depths of destitution and despair, are performing a task which only The Salvation Army can perform.

They need YOUR dollars . . . now, more than ever . . . to help them in this great work of building for a better Canada.

### For Gasoline Lanters, Lamps, Irons and Stoves

The following letter from the Head Office of the Coleman Lamp and Stove Co. Limited speaks for itself:

"During the past several years it has been our policy from time to time to have our laboratory make a series of tests on Imperial Naphtha. After careful analysis each time we have found that Imperial Naphtha has all the qualities so essential in a fuel that is to be used in gasoline lamps, lanterns, irons, stoves, blow torches, and similar products. We highly recommend it for use in Coleman gasoline appliances. In our correspondence with dealers and customers we invariably mention Imperial Naphtha by name".

For greatest satisfaction always use Imperial Naphtha

### BOBBY BARNES NOW PRACTICING LAW AT DUNCAN, B.C.

The Journal received a letter from friend R. F. Barnes at the week end in which he states he has been admitted to the bar in British Columbia and has hung out his shingle at Duncan on Vancouver Island.

Bobby has met both George Pattinson and W. L. Rippon and has evidently matched strokes with them on the golf course as he admits both his opponents have shown improvement in their game since he played them last.

The Journal will henceforth be a regular weekly visitor to Duncan, B.C. Bobby extends kind personal regards to Coleman friends.

### NEGOTIATIONS START THURSDAY

Negotiations between the Bituminous coal operators of the Crow's Nest Pass and the Western Canada Firebosses Association reopened their negotiations today.

The two parties met a few weeks ago but due to the operators being busy with the miners' new contract demands it was mutually agreed by both parties to suspend negotiations until the miners' contract had been ratified by Ottawa.

Q. Does rest aid a cough?  
 A. Yes, this is an efficient remedy for a cough. Rest of the body should be combined with rest of the voice. Avoid talking, laughing, etc.

## Forestall Disaster

Disasters come to everyone. Some folks are luckier than others and the blows fall with less weight, but, somehow, sometime, troubles arrive. It isn't a very cheerful thought, but it must be admitted it's truthful. Disasters, with their certain losses, can be anticipated and lightened by insurance. We have for your inspection many different forms which adequately cover your requirements.

Let Us Explain Them To You.

## Board Of Trade Given An-Address On Highways

Board To Again Sponsor Rodeo;  
Dates to be August 1 and 2 Next  
Year; Colored Film Shown.

The banquet room of the Grand Union hotel was filled to capacity on Tuesday evening as a large number of the Coleman Board of Trade members were in attendance to transact important business, hear an address on highways by Alex. Snowdon, of Lethbridge Board of Trade and see colored film through the courtesy of Mr. Gushul, of Blairmore, and Capt. F. Smith, of the Salvation Army.

Chairman H. Allen called upon Mr. Percy Dickieson to give a report on the Irrigation Jubilee, sponsored by the Lethbridge Board of Trade, which was attended by local representatives: H. Allen, J. McDonald and P. Dickieson.

Mr. Dickieson praised highly the Lethbridge Board of Trade's initiative and ability in sponsoring the event which brought southern Alberta's irrigation projects before the Dominion as a whole and even to a certain extent in the United States, particularly Montana. In attendance were the Hon. C. E. Howe, premier Manning, of Alberta and other notables from the Dominion and the United States. The speaker called upon the Coleman Board of Trade to raise its sights and spend part of its energy in the conservation of this great water shed in which we reside and also the rehabilitation of the forest area which abounds around us.

John McDonald, secretary of the Coleman Rodeo committee, gave a report on the committee's recent activities. The CPA had sent tentative dates to the committee, those being Aug. 1 and 2, Friday and Saturday, of 1947. The War Assets Corporation had replied to enquiries and stated that no fencing suitable for the job desired by the committee was available. It was agreed that the Board of Trade would again sponsor the Rodeo and that the committee confirm the dates of Aug. 1 and 2 with the CPA.

The principal speaker was Mr. Alex. Snowdon, member of the Lethbridge Board of Trade's highways committee. He quoted at length numerous figures which tended to show that Motor Transport had been instrumental in reducing freight rates and with improved highways these rates could further be reduced.

He stated that with modern highways Canada stood to gain at least 600 million dollars from the tourist traffic. The Alaska highway he described as a tourist mecca and traced numerous States highways which funnelled into southern Alberta's borders, thence to Lethbridge, Calgary, Edmonton and on into the north and the Alaska highway.

He had phoned the Hon. W. L. Fallow the day prior to his Coleman visit in a vain attempt to get some definite statement from the minister pertaining to the Pincher to the BC border road. Mr. Fallow had been non-committal however outside of revealing that the road from Pincher to the border had been re-surveyed and that should government machinery be available or even if the department could contract the job to a private contractor the work on the road would be started in the early spring of 1947.

In concluding the speaker offered the support of the Lethbridge Board of Trade in maintaining agitation for an improved and modern highway from Lethbridge right to the BC border and expressed the hope that British Columbia would see fit to improve their highways along the southern part of the province into Vancouver, mentioning particularly the yet uncompleted Princeton to Hope link.

Through the courtesy of Mr. Thomas Gushul who had brought many reels of colored film on subjects taken in the Pass over a period of years among them being

the parade of the Coleman Rodeo last year, and Capt. F. Smith who loaned his projector, the members were privileged to watch interesting scenes of Pass activities which were now history. The colored work in the films was very good.

### Playgoers' Club Notes

At a general meeting of the Coleman Playgoers Club held on October 22, staging, casting, reading and social committees were elected for the coming year's activities. Program for the year was discussed and a decision reached to hold an evening of one-act plays during the first week of December. Three one-act plays will be presented and are already in rehearsal. They will be directed by Mrs. Arthur Graham, Mr. Arthur Graham and Miss Mary Duncanson.

The directing committee has submitted a selection of several plays to the Alberta Drama League. These plays to be presented by the club at the forthcoming Lion's Drama Festival.

### Mr. and Mrs. Louie Kalivoda Celebrated 25th Anniversary

Thirty Guests Present;  
Presented With Beautiful Gifts.

On Saturday, Oct. 26, Mr. and Mrs. Louie Kalivoda celebrated their 25th wedding anniversary at their west Coleman home. Present were approximately thirty guests who aided in the celebration.

A sumptuous supper was served, the honored couple's table being centred with a three tiered wedding cake beautifully decorated. Beautiful bouquets of flowers decorated the tables.

Following a most enjoyable social evening Mr. and Mrs. Kalivoda were presented with a number of handsome gifts, among them being a sugar and cream set, and a tea pot set all in silver, a mantle clock, silver casserole, a handsome tray made of hardwood and other gifts.

### The Churches

#### ST. ALBAN'S CHURCH

## The Nuernberg Trials

IN A WORLD WHICH HAS GROWN accustomed to events of immense importance following each other in quick succession, it is difficult at times to evaluate what is happening in terms of its effect on the future well-being of the world. The Nuernberg war trials have now been ended for some time and other news has succeeded the accounts which for many weeks appeared in the press, telling of the grim proceedings dealing with the accused leaders of Nazi Germany in the late war. It would be well, however, for the trials to be always remembered, for they marked a milestone in the course of human history, and there have been few events so filled with importance for this and succeeding generations as the dealing out of justice to those men who plotted together to bring misery and destruction to millions of innocent people.

### Not Planned For Revenge

Although there are undoubtedly many who would feel that the sentences imposed were fitting retribution for the evils which the Nazi criminals had perpetrated, it was clearly indicated that revenge was not the motive of the trials nor did it influence their outcome. Rather, for the first time in history, these men were tried in an impartial court of justice with all the rights of prisoners in any free country, for their fiendish crimes against humanity. If the Nuernberg trials have the effect which it is hoped they will, statesmen in the future will be aware that they cannot bring peril upon people and nations at will without some day being liable to be called to account for their actions at a court such as was conducted at Nuernberg.

### Excuses Were Not Accepted

The excuse put forth by the Nazi defendants in these trials, and by other war criminals before them, namely that they were the tools of others, in higher positions, was not accepted. In refusing it, the court at Nuernberg established a precedent which should in the future deter statesmen and others in authority from instigating crimes such as were committed in Europe between 1939 and the defeat of Germany. During that time, millions of people were subjected to the cruelties of internment camps, extermination centres and other forms of degradation and cruelty, such as the almost incredible treatment dealt to the people of the village of Lidice. It is unthinkable that the world should again witness such horrors, and it is to be sincerely hoped that the lesson of the Nuernberg war tribunal will be well remembered, and will be instrumental in preventing any repetition of violation of human rights such as have occurred during the last decade.

### For Safe Driving

Clear Vision And Proper Care Goes Far To Prevent Accidents

About now is the proper time for motorists to consider safe driving in bad weather. Lives are at stake from indifference, carelessness and wanton neglect. The importance of a clear windshield for snowy, rainy days can not be too strongly emphasized. Clear vision is essential to safe driving and proper care will go a long way to insure better vision. Dried out rubbers, hardened by oxidation, should be replaced at once and those wipers that do not really clean the windshield should be changed. The prevention of "accidents" is vital to safe driving for the motorist and the innocent driver of the other car. It is better to be reasonable now than to try to explain to the coroner—Brandon Sun.

### STATISTICS SHOW COST OF LIVING FOR FARMERS UP

OTTAWA. — Farmers are paying more for commodities, services and living costs, the Dominion Bureau of Statistics said. A composite index covering these costs to farmers rose three points to 141.6 between April and August.

The new figure was an increase of 5.6 per cent. over August, 1943. The Eastern index, at 142.4 was up 2.2 per cent. in the April-August period while the Western index at 140.5 represented an increase of 2.9.

A greater variation between East and West was apparent in the increases over August, 1943, levels—4.9 per cent. in the East and 6.8 points in the West.

Each adult inhales a gallon of air per minute, and consumes 30 ounces of oxygen daily.

## Price Control And Rationing Information

Q—I will be changing the address of my place of business shortly. Should I notify the Licensing Division of the Wartime Prices and Trade Board of this change?

A.—Notification of any change in address, name, ownership or character of business must be submitted to the Director of Licensing through the nearest office of the Wartime Prices and Trade Board, within ten days of such change; licence must be returned to the Director of Licensing within ten days after discontinuance of business for other than seasonal reasons.

Q.—Will you please tell me when the canning sugar coupons expire?

A.—No expiry date for canning sugar coupons has been announced. Before any change is made, you may rest assured that plenty of notice will be given through the press and over the air.

Q.—Are suits still held for discharged armed service personnel who are in possession of priority certificates?

A.—After October 30 no more priority suit certificates will be issued to discharged servicemen. Certificates which aren't turned in before October 30, remain valid until December 31.

Q.—Have California dates been removed from the price ceiling?

A.—The Wartime Prices and Trade Board has removed California dates from price control.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### When Royalty Travels

Every Precaution Is Taken And Veteran Engineers Share Driving

The Manchester Guardian says the King and Queen to London for the opening of the "Britain Can Make It" exhibition was done at a quicker speed than if it had been undertaken by Queen Victoria. Though high speeds were possible in her day, she always stipulated a maximum of 40 m.p.h. when she travelled, and even had an arrangement by which she could signal for a reduction of speed or a stop.

In her day it cost something in the region of £1,000 to make the double journey by royal train from London to Ballater, and it is said that Queen Victoria once spent £10,000 a year on railway travel.

The King pays first-class fares for every member of the royal party travelling, and before the rise in prices he paid 12s. 4d. a mile for the use of the royal train; he would have to pay more today!

Great precautions are taken and elaborate arrangements made when over-royalty travels by train. Level crossing gates are locked, goods trains in sidings are examined, and the royal train is signalled mile by mile. No one man has the privilege of driving the train, the honor being shared by a number of veteran drivers.

### LESS LIVESTOCK

Survey Shows A Decrease In All Classes

According to the survey of the principal classes of livestock on Canadian farms as at June 1, 1946, a decrease in number was recorded in all classes—horses, cattle, sheep, and hogs—compared with 1945, as follows:

Horses, 2,386,850 in 1946, a decrease of 187,850 since 1945. Milk cows, 3,913,900 in 1946, a falling off of \$4,300 from 1945. Sheep and lambs, 3,378,400 in 1946, a drop of 243,400. Hogs, 5,377,300 in 1946, is a decrease of 648,300.

The decline of horses on farms occurred principally in the Prairie Provinces. In regard to sheep, the only Province showing a gain over 1945 in numbers is Saskatchewan where a slight increase is recorded (518,400 head as against 513,200 in 1945). The all-over reduction in numbers of sheep for Canada was 243,400 or 6.7 per cent.

### Lake That Vanished

Shoe. Of Water Five Miles Across Disappears In Australia

The mystery of the "lake that disappeared" has Queensland, Australia, scientists puzzled—and disputing. Which of the theories advanced is correct may never be known, but these are the facts:

Lake Noga, Noga, situated on Warranilla station, north of the Carnarvon Range in Queensland, was a considerable body of water. At its widest part it was about five miles across; its depth varied from a few feet to 20. On Christmas Eve, 1944, a muffled explosion was heard in the district. Local residents say that from then on the area of water steadily decreased. Today, all that remains of Lake Noga Noga is a strip of mud about 100 yards by 20. Since the explosion, there has been no life in the lake.

Residents in the locality believe the Christmas Eve explosion opened a channel to an underground shale layer, which is thought to run through to Springsure, 70 miles away. But a Queensland University geology professor thinks evaporation, caused by abnormally dry weather, is the real explanation of the lake's disappearance.

Two other "mysteries" on Queensland's Atherton Tableland are Lakes Barrine and Eschm. Though these two lakes are 3,000 feet above sea level and have no connection with any watercourses, they are tidal. The lakes are 15 miles apart and district residents believe they are connected by a subterranean channel.

Local legend: A native woman was drowned in one of the lakes in the pioneer days, and her body was found in the other.

### MAY BE RIGHT

Startling and perhaps not so funny was the answer to this examination question:

"What is the significance of the seventh of November, 1918?"

One observing member of the class responded: "That's the day the Armistice of World War I was signed and there have been two minutes of peace each year since."—Christian Science Monitor.

"But Murgatroyd—you don't have to wait until morning before you eat your crisp delicious Grape-Nuts Flakes."

"Two grains—wheat and malted barley—are the double-barreled reason for that Grape-Nuts Flakes goodness. They're specially blended, baked and toasted for golden-brown, delicious crispness and easy digestion." "I'm going to fill up the sled with some giant economy packages of Grape-Nuts Flakes next time we're down at the trading post!"

### GEMS OF THOUGHT

#### STABLE CIVILIZATION

He who shall introduce into public affairs the principles of primitive Christianity will change the face of the world.—Benjamin Franklin.

All that is best in the civilization of today, is the fruit of Christ's appearance among men.—Daniel Webster.

The true test of civilization is, not the census, nor the size of cities, nor the crops, but the kind of man that the country turns out.—Emerson.

I believe from my heart that the cause which binds together my peoples and our gallant and faithful allies is the cause of Christian civilization.—King George VI of England.

If we could reach a stable civilization, we must penetrate below political and economic troubles into their causes and bring about a fundamental change in the bases of life.—Arthur H. Compton.

Mankind will be God-governed in proportion as God's government becomes apparent, the Golden Rule utilized, and the rights of man and the liberty of conscience held sacred.—Mary Baker Eddy.

#### ONLY TWO COURSES

NEW DELHI. — With immediate effect only two courses can be served in Delhi restaurants instead of three courses as hitherto. This is the latest attempt by the central government to combat the India famine menace.

### Supply Still Short

But Situation Regarding Pure Black And White Pepper Is Improving

The shortage of pure black and white pepper will last another six or nine months, W. Edgar Ducharme, secretary-treasurer of the Canadian Spice association, estimated.

Pure pepper has been scarce since the Japanese overran pepper producing countries in the Far East but Mr. Ducharme said steps had been taken to reorganize production and the situation was improving gradually.

#### NEED OF COD LIVER OIL

Parents are reminded by the Department of National Health and Welfare, Ottawa, that this is the period of the year for starting children on Cod Liver Oil again. Without sunshine or fish liver oil, healthy bone and tooth development is not possible, say the health authorities.

Cleopatra is said to be the first beauty to change the color of her hair. She used henna.

GENUINE ASPIRIN IS MARKED THIS WAY

### Outlook Better

Population Growth Promises For Canada More Favorable Than U.S.

NEW YORK. — The outlook for continued population growth by natural increase is far brighter for Canada than for the United States, Metropolitan Life Insurance Company statistics show.

Based on birth records of the two countries, the statistics indicate that in the years 1940-1942, Canada's population grew at the rate of 27 per cent. per generation while the United States rate was just a little more than requirements for a stationary population.

### NO UNEMPLOYMENT FORESEEN IN UNITED KINGDOM

LONDON.—Supply Minister John Wilmot stated that unless the British government "made some terrible mistake," there would be no unemployment in this generation such as that which occurred between the First and Second Great Wars.

Mr. Wilmot, addressing an audience in his home constituency of Deptford, in southeast London, said that Britain was entering a period in which the only limit to consumption was production. He added that the more Britain could produce, the more she could have.

He said the answer to the problem of shortages was to increase output.

#### ONE ON POSTMASTER

The street in Chattanooga, Tenn., was rather dark as Postmaster Robert Sterch deposited his large package, very properly addressed for mailing, in the container. As he turned away a stranger tapped him on the shoulder and explained: "Sir, that's the garbage can. The mail box is over here."

## ITCH CHECKED in a Jiffy—or Money Back

For relief from itching caused by eczema, allergic skin, rashes, pimples and other skin conditions, use our cooling, medicated, liquid D. D. D. PRESCRIPTION. Greasy and stannous. Soothes, comforts and quickly calms itching. Don't suffer. Ask your druggist today for D. D. D. PRESCRIPTION.

## THE CANADIAN CUSTOMS DEPARTMENT HAS CLARIFIED ALASKA HIGHWAY RULING

OTTAWA.—Customs department officials reiterated a statement that commercial goods are not allowed to move from the United States to Alaska over the Alaska highway unless duty is paid.

The subject came up earlier last week when Senator Warren G. Magnuson of Seattle protested to the American state department that American shipments were being barred on the highway. He said this was contrary to a United States-Canadian treaty but external authorities at Ottawa said there was no treaty. They reported discussions were under way with the United States in an effort to work out an arrangement for shipments.

Under the present regulations, customs department officials said, there is no provision for shipment of goods in bond by truck in Canada. The Ottawa outline of the situation conflicted to some extent with a statement made in Edmonton by W. J. Eveleigh, administrator of the Canadian section of the highway. Mr. Eveleigh said shipments must be cleared with the customs and excise branch in Ottawa and then they were allowed to move.

Customs officials said there was no arrangement for any such clearance. Mr. Eveleigh also referred to three shipments being made recently and it was suggested here these might have been shipments of personal or household goods which are not subject to duty.

"The only way commercial goods can enter Canada and move over the highway is for duty to be paid on them," a customs authority said Saturday. "Shipment of commercial goods in bond by truck is not permitted anywhere in Canada."

### JUST WEATHER CHECK

BREST, France.—Speculation that a container dropped by parachute in the Brittany area may have had some connection with the other jewels belonging to the Duke and Duchess of Windsor ended abruptly. The French meteorological bureau announced that it owned the container, dropped as part of a routine weather check.

Most of the birds that migrate to and from Canada travel at night.

## SUMNER WELLES SAYS UNITED NATIONS' SECURITY COUNCIL SAVED WORLD FROM ANARCHY

MONTREAL.—Existence of the United Nations, during the critical post-war period, has had the effect of saving humanity from world anarchy, Sumner Welles, former undersecretary of state for the United States, said here.

The fact that the security council of the United Nations existed, and that its authority was recognized in practice, made it possible for such grave disputes as those involved in the case of Iran, Spain and Greece either to be solved or at least to be led into channels where a just and pacific solution could still be found, he said.

"The United Nations must be strengthened and improved but this must be done on practical grounds rather than by advocating the immediate formation of a system of world government."

Russia has already expressed her opposition to world government, Mr. Welles recalled, and the United States would likely feel reluctant to support it.

Establishment of a just peace would more likely be realized if the lesser powers among the United Nations were afforded a far greater opportunity of shaping the decisions reached than that they had yet been accorded.

"A majority of the lesser powers have had no individual axe to grind. They are motivated solely by an overwhelming desire to see the conclusion of a peace that can last."

The compromises at the peace conference at Paris on Trieste, Italian colonies, freedom of navigation on the Danube, the frontier between Italy and Yugoslavia and other issues could not make for the establishment of any lasting peace, he said.

"These treaties represent only the lesser part of the peace-making problem. If the peace treaties with Germany and with Japan are to prove to be of the same nature as those now adopted, the results will necessarily be even more dangerous."

Referring to factors contributing to the mutual distrust of Russia and the western democracies, he said that what is required today is the persistent and patient effort on the part of the governments of the west to find those fair solutions for the practical problems which are keeping us apart.

### SURE OF SUCCESS

Russia's Foreign Minister Confident United Nations Will Overcome Difficulties

NEW YORK.—V. M. Molotov, Russian foreign minister, said he "was sure that the arguments of the United Nations will be settled and difficulties overcome in the interest of peace."

Molotov, smiling genially, and speaking through an interpreter, told the press in an interview aboard the Queen Elizabeth that "the delegation for the Soviet Union will work for the interests of peace because this represents their interests, too."

The Russian foreign minister was accompanied by Andrei A. Gromyko, delegate to the United Nations and Andrei Y. Vishinsky, Russia's deputy foreign minister. Both Gromyko and Vishinsky, although they smiled broadly, refused to make any statement for the press.

### RENTAL INCREASE

General Lifting Of Ceilings Is Seen During 1947

OTTAWA.—A general "across the board" increase in rental ceilings is under consideration for some period in 1947, judging by a study made by the research division of the price board, according to information obtained here. Regional controllers will still continue to deal with specific cases, but the research study indicates that wage increases and higher adjustments of price ceilings justify a general raise in rental ceilings.

A researcher of the division is now in Washington, making a study of the U.S. rental situation. According to this information, the Canadian study indicates that during most of 1947, the general rental rise should not exceed 10 per cent.

### PLANS FOURTH REICH

NUERNBERG.—Rudolf Hess has taken over the No. 1 Nazi role since Hermann Goering's suicide, is showing a keen memory, and is drafting plans for a "fourth Reich." Col. Burton C. Andrus, prison commander said, Hess was in good humor despite his life prison term. During the trial he acted in an eccentric manner but was ruled legally sane.

### MAY GO ON TRIAL—A

top-level U.S. prosecution officer has revealed that the British Labor government has decided to take a vigorous stand in favor of the trial of German industrial leaders as war criminals. This step, he said, is due to the pressure of British public opinion, which has reacted strongly against the acquittal of three defendants by the war crimes tribunal. In consequence, it is believed that Alfred Krupp von Bohlen and Halbach, 43, above, who succeeded as head of the Krupp arms industry, will go on trial before next spring.

### THREE-YEAR TERM

Another Saskatchewan Man Made Member Of National Research Council

SASKATOON.—Dr. W. P. Thompson, dean of arts and science, University of Saskatchewan, has been appointed a member of the national research council, it was learned. The appointment is for a period of three years, expiring March 31, 1949. The appointment brings to two the number of Saskatchewan men on the council. C. J. MacKenzie, former dean of engineering at the university, is president of the council.

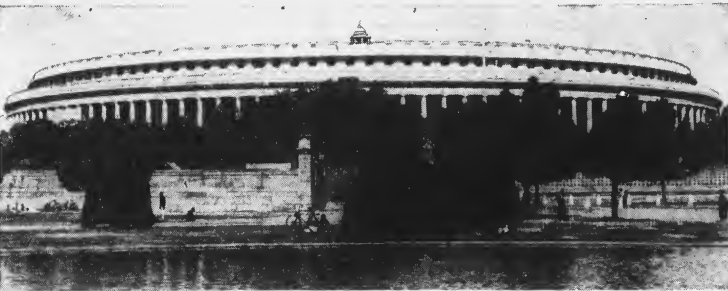

### TO BLAZE TRAIL

SAN FRANCISCO.—A major step toward around-the-earth airline service was made with the take-off of the Pan-American world airways clipper Westward Ho on a 24,000-mile survey flight through the Orient.

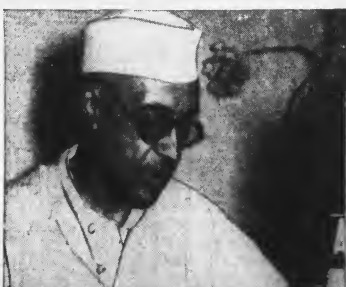

QUEEN STEERED LINER DURING SPEED TRIALS—Queen Elizabeth is shown on the bridge of the great liner bearing her name during speed trials in the Firth of Clyde. After a brief stint with a dummy apparatus, Her Majesty took over the ship's wheel and steered. The Queen Elizabeth is shown steaming off the Isle of Arran during the speed trials. Princesses Elizabeth and Margaret Rose also were aboard.

## Rioting Reported From East Bengal As Moslems Accept Seats In India Government

Rioting reported on a larger scale than the Calcutta disturbances, which took 4,000 lives, broke out in East Bengal following acceptance of the offer which was expected to end disorders. In New Delhi, the viceroy is holding

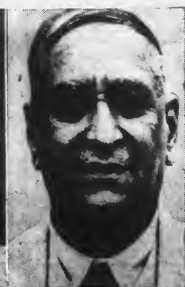

discussions at council house, shown here. Interim government would include six Congress, five Moslems, three others.

New offer by Viceroy Wavell for the Moslem League to enter the interim government is said to have been accepted. Pandit Nehru, above, is leader of the interim government.

Works, mines and power minister is Sarat Chandra Bose of Hindoo Congress.

Leader of Indian Christians, who has one seat in cabinet, is Sir Raja Singh.

## WILL NEED WHEAT

Contract With Canada Does Not Fill Requirements Of Britain

EDMONTON.—Sir Alexander Cluttbuck, United Kingdom high commissioner to Canada, in an interview said Britain's wheat requirements this year and again in 1948 will be about 220,000,000 bushels a year, or 60,000,000 more each year than is provided for under the Canadian contract.

In regard to the Canadian wheat contract providing for a minimum of 160,000,000 bushels a year, Sir Alexander said that Britain would need more than this amount for home consumption. Not only had she to take care of its home demands, but supplies also had to be furnished for the European occupation zone in Germany.

Britain, he said, had done much better than had been expected in making trade recovery in the first post-war year, and there was every reason for confidence that the country would "break even" next year.

He explained that by "breaking even" he meant the time when exports were sufficiently high to pay for the goods which the country imported.

## MORE FOR EXPORT

Restrictions Have Been Lifted On Canadian Alfalfa Seed

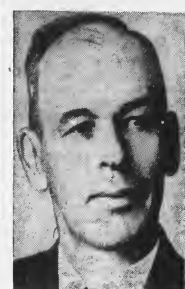

OTTAWA.—Canadian alfalfa seed, export of which has been restricted over the last few years because of the world seed shortage, now may be exported to any country, the agriculture department announced.

The only formality now to be met by Canadian exporters is to have an export permit issued by the export permit branch of the trade department.

Up to now the seeds committee of the International Emergency Food council, which controlled all exports, restricted shipments to specified countries. Thursday, however, the department was advised that alfalfa seed has been removed from the allocation list.

Production of alfalfa seed in Canada this year was estimated at about 9,000,000 pounds. Domestic requirements will be about 5,500,000 pounds, leaving about 3,500,000 pounds available for export.

## CANADIAN ARMY RECRUITING FOR ACTIVE AND RESERVE FORCES PROCEEDING STEADILY

OTTAWA.—Recruiting for both the active and reserve forces of the post-war Canadian army is "proceeding steadily," defence headquarters announced, but there are still 10,000 vacancies in the active force and an undischarged number in the reserve force.

The active force, when up to strength, will number 25,000 officers and men, while a reserve strength of 180,000 is planned.

Headquarters said both forces are "swinging into action to recruit up to full strength as soon as possible," and that recent approval of the new rates of pay, terms of service and the revised pension scheme had opened the way for a full-scale recruiting drive.

Military districts across Canada now are being given instructions to start filling their assigned quotas by enlisting volunteers from either veterans or young men who have had no previous military training.

Since the number of additional recruits required for the active force is not large, it is not intended to open recruiting offices, but information on how to enlist will be available to prospective recruits on application to any army unit—reserve or active—in Canada.

ELECTED—The electors of Portage la Prairie constituency chose C. C. Miller (above), Progressive Conservative candidate, as their representative in the House of Commons, in succession to the late Harry Lead- er, who had held the seat for the Liberals from 1935 until his death last May.

## SALES MOUNTING

Canadians Realize That New Savings Bonds Are Good Investment

OTTAWA.—At the end of six selling days, total sales of Canada savings bonds reached \$94,039,500, national headquarters reported. The total for the sixth day was \$17,297,150.

Reports from Western Canada indicate country folk are out-buying urban residents. In many cases farmers were going straight from grain elevators to the banks and to investment dealer offices, turning in a substantial portion of their harvest cheques for the new bonds.

## AFTER DAVIS CUP

American Team Flying To Australia To Compete For Tennis Trophy

NEW YORK.—The American Davis cup team will leave San Francisco Nov. 15 by Pan-American plane for Australia, where the challenge round for the international tennis trophy will be played the last week in December. Walter Pate, non-playing American captain, announced.

The party is due to reach Sydney on Nov. 18. It will mark the first time an American Davis cup team has flown to the site of a title match.

## SOVIET RUSSIA REDUCES ARMED FORCES FOR FOURTH TIME SINCE END OF WAR

### LUMBER SHIPMENTS

United Kingdom Received More From British Columbia In August

VANCOUVER.—Shipments of lumber from British Columbia to the United Kingdom totalled 48,246,000 board feet in August this year compared with 45,000,000 board feet in the previous month, the Pacific lumber inspection bureau announced.

Total B.C. coast production of lumber during August was 120,000,000 board feet and 6,804,000 board feet went to Australia; 3,645,000 board feet to China and 6,814,000 board feet to Africa.

MOSCOW.—Soviet Russia announced another cut in her armed forces, the fourth since the end of the war.

The decree of the presidium of the supreme Soviet, coming on the day the United Nations general assembly was opening in New York, emphasized again the words of Prime Minister Stalin in a Birminghamp correspondent a month ago that he saw no real danger of a new war.

It also emphasized the drive which Russia is making to put manpower back into industrial and agricultural production programs of the four-year plan, and the 56,000,000,000 ruble (\$10,000,000,000) cut in the Russian defence budget for next year.

The decree said "older ages of soldiers and non-commissioned officers of land troops" would be sent home from the army in the period from Nov. 1 to Jan. 1. It did not say what age groups were going back to civilian life. It does not affect officers or men of the air force or navy.

Until now Russian demobilization orders have listed 29 age groups. There has hardly been a period, however, since the first of the four demobilization orders and now that men have not been leaving the army.

In view of the greatly reduced expenditure for defence, observers believe that this is not the last such order.

Although the latest order came on the day of the meeting of the United Nations' general assembly, observers believed this may have been only a coincidence inasmuch as demobilization appears to be following an overall pattern of getting men back into the thousands of jobs where they are desperately needed.

## LAUNCHING DRIVE

Aim Of Royal Canadian Mounted Police Is 1,000 Recruits

OTTAWA.—Commissioner S. T. Wood of the Royal Canadian Mounted police announced recently the extra war duties pay, drawn by members of the force since 1914, has pay rates, effective Oct. 1.

At the same time, Commissioner Wood announced the force was launching a drive for 1,000 recruits and added that as a further inducement the age limit has been temporarily reduced from 21 to 18 years.

### CHANCE FOR RENTERS

MONTREAL.—B. K. Bolton, head of Wartime Housing limited, said in an interview that consideration is being given by the government to the question of selling to former servicemen and war workers the houses they rent at present from Wartime Housing.

## Hassocks

A new line of chest style hassocks, each one with a spring-filled upholstered lid. They come in a variety of shapes and colors, there are square, triangular, oblong and hexagon shapes in combined color schemes of red, green, tan, grey, brown and wine.

### LOCAL NEWS

Mrs. C. O. Brien, of Dapp, Alberta, is the guest of Mr. and Mrs. A. Salus.

The Misses Lillian and Audrey Root visited relatives in Calgary at the week end.

Pat Knowles, of Vancouver, is the guest of his grandmother, Mrs. M. J. McGrath sr., of Carbondale. Mrs. McGrath also has as her guests her granddaughter, Mrs. J. Thorpe, and Mrs. Thorpe, of California.

A party in honor of Miss "Bunny" Jenkins, recently arrived from overseas was held at the home of Mr. R. Jenkins on Saturday evening. "Bunny" was given a real welcome home by family members and friends.

The Journal acknowledges with thanks renewal subscriptions received during the week from Mrs. Ernie Houghton, of Vancouver, and Mr. W. L. Rippon, of Victoria. Both extend greetings to Coleman friends.

Mr. and Mrs. Dave Jessey and family, Mr. and Mrs. Doug Jenkins, all of Calgary, motored to Coleman at the week end and brought home Mrs. Jessey's sister, "Bunny" who had just recently arrived in Calgary following her return from overseas.

Rev. Wm. Grainger was admitted to hospital last Friday.

John Anderson jr. has been a patient in the local hospital for the past two weeks.

Pauline Zimka and Walter Zeluda, of Fernie, visited the former's parents here at the week end.

Eight members of Victoria Rebekah lodge visited Bellevue recently where they attended the district Rebekah meeting.

Miss Ella Frojak, who is attending the Henderson Business College, Calgary, spent the week end in the Pass visiting friends.

Coleman Motors have four Mercury units arriving this week. Three are passenger cars and the fourth a two-ton truck. All units are sold.

The Journal office has a grand selection of Christmas cards this year. Call 209 and our young salesmen will be only too pleased to call with their sample book.

Mr. Tom Joss, of Blairmore, is the proud owner of the new 1947 Shubaker sedan. The purchase was made through Jim Wilkie of White Rose Service and Garage.

Mr. Joe Salus, who has been attending the electrical refrigeration school at Toronto, returned to his home during the week. He is presently in Calgary on a business trip.

### THE RIPPONS WRITE FROM VICTORIA

The Journal received a nice newsy letter from W. L. Rippon at the week end. He and Mrs. Rippon are now comfortably settled at 1456 Gladstone Ave, Victoria.

He states the weather is just ideal and that the only rain experienced so far is that which has fallen at night. To the uninitiated this is a mighty important factor as the rain does not then interfere with Rip's golf game, (we have Bobbie Barnes word for it that Rip's game is improving).

Mrs. Rippon, always an enthusiastic flower lover, will be in second heaven as the roses and other fall flowers are still blooming alongside her new home.

They have met the Pattinsons, Reids, and Mrs. Maud Clifford. They hope to meet the Sam Moores shortly.

Both Mr. and Mrs. Rippon join in extending their kindest regards to old friends.

### TECHNICOLOR FILM ABOUT COLE PORTER COMING TO COLES

"Night and Day," one of Warner Bros.' gala Anniversary films currently being released in connection with the 20th Anniversary of Talking Pictures, arrives Saturday at Cole's, Bellevue with a cast

headed by Cary Grant and Alexis Smith.

The technicolor musical, based on the career of Cole Porter, was produced by Arthur Schwartz, and directed by Michael Curtiz and features many famous stars of the screen, stage and radio, among them Monty Woolley, Ginny Simms, Jane Wyman, Eve Arden, Carlos Ramirez, Donald Woods and Mary Martin.

The film traces the career of composer Cole Porter from the time he decided to give up study of law for song writing, through his World War I experiences and a too successful career which almost disrupted his marriage.

St. Alban's Ladies Guild

will hold their annual
